

## Work in Progress Preface

This volume contains the work in progress papers presented at CICM 2013: Conference on Intelligent Computer Mathematics held on July 9, 2013 in Bath.

There were 7 submissions. Each submission was reviewed by at least 2, and on the average 2.1, program committee members. The committee decided to accept 4 papers.

We would like to thank our peer reviewers for carefully reviewing the submissions and giving constructive feedback.

This proceedings volume has been generated with EasyChair and ceur-make, which made this task really convenient.
