*The workshops were held in conjunction with the 5th International Conference on Biomedical
Ontology (ICBO 2014)
Houston, TX, USA
October 6-7, 2014*

Preface

This volume collects the papers of three workshops held at the International Conference on Biomedical Ontologies (ICBO 2014) in Houston, TX. For more detailed information about the First International Workshop on Drug Interaction Knowledge Management (DIKR 2014), the Second International Workshop on Definitions in Ontologies (IWOOD 2014) and the Workshop on Starting an OBI-Based Biobank Ontology please refer to the individual workshop prefaces. The editors would like to thank the ICBO organizers, the members of all three scientific committees, the authors and, of course, the participants of the workshops. In addition, we would like to thank Mark Jensen for his advice regarding the creation of CEUR-WS submissions.

*December 2014
The editors*

TABLE OF CONTENTS

The First International Workshop on Drug Interaction Knowledge Representation (DIKR 2014) <i>R. D. Boyce, M. Brochhausen, P. E. Empey, W. R. Hogan, D. C. Malone</i>	1
Redesign of a clinical decision support system for a drug – drug interaction alert <i>D. Luna, C. Otero, F. G. Bernaldo de Quiros</i>	3
Towards a foundational representation of potential drug - drug interaction knowledge <i>M. Brochhausen, J. Schneider, D. C. Malone, P. E. Empey, W. R. Hogan, R. D. Boyce</i>	16
The Second International Workshop on Definitions in Ontologies (IWOOD 2014) <i>S. Seppälä, P. Ray, A. Ruttenberg</i>	32
Textual and logical definitions in ontologies <i>S. Seppälä, Y. Schreiber, A. Ruttenberg</i>	35
Defining ‘sign’ and ‘symptom’ <i>A. P. Cox, P. L. Ray, M. Jensen, A. D. Diehl</i>	42
An alternative terminology for pain assessment <i>W. Ceusters</i>	49
The Workshop on Starting an OBI-based Biobank Ontology (OBIB 2014) <i>M. Brochhausen, M. Haendel, C. J. Stoeckert, J. Zheng</i>	55
Penn Medicine Biobank Informatics <i>H. Williams, D. Birtwell</i>	57
Towards a Common Semantic Representation of Informed Consent for Biobank Specimens <i>F. J. Manion, Y. He, E. Eisenhauer, Y. Lin, A. Karnovsky, M. R. Harris</i>	61
A Specimen-based View of the World - Using the Biological Collections Ontology to Model Biodiversity Collections <i>R. Walls, R. Guralnick, J. Deck, A. Matsunaga</i>	64
